

EXPRESSGLASS

Facilities Management

Australia's major banks choose Express Glass.

Australia's leading Facility Management companies prefer Express Glass. We're also the first choice of many in-house facilities managers such as the University of New South Wales and McDonalds.

All day, all night, all over Australia

We operate 24 hours a day, seven days a week, every day of the year. We also operate all over Australia eliminating the need to have a separate glazier for each location. Better still, we have one price no matter where you are.

Personalised solutions

Many of the financial institutions and other corporate clients that we work for have individual requirements for the management of their work orders. We are able to tailor solutions, adapt our systems and integrate seamlessly with your systems as needed.

Stay informed

Express Glass are experienced in following client protocols in relation to advising the call centre of work order progress during the job. Through our computerised job tracking system we can offer 'real time' updates on the status of any job in progress and provide regular reporting on any current work, ensuring you have all the documentation required.

Supporting the organisations that support you

Express Glass proudly supports the FMA. We are committed to providing first class glazing services to FMA members and we look forward to continuing a long association with the FMA.

To talk to someone about how Express Glass can help you with your emergency glass and glazing, call Mark Jennings on 1300 666 234 or email markj@expressglass.com.au.
