

# EXPRESSGLASS

## Window Films

From anti-graffiti, to solar tinting, to privacy and decorative film, Express Glass can find and apply the right film solution for you.

Our in-house film specialist keeps up-to-date on the latest applied film products and uses and can answer any of your questions about film.

We have also established a strong alliance with Australia's largest film distributor meaning we can access the full range of film solutions and very competitive rates.

**Glass Graffiti** | If you are looking for a low cost solution for graffiti, applying anti-graffiti film to the outside of your windows may be the answer. If taggers manage to damage the film, replacing it is easy and cost-effective... you no longer need to replace your entire window.

**Solar Tinting** | Express Glass can source and install a wide range of Energy Management Films which allow for light transmission while blocking heat and UV rays, and reducing your energy costs.

To talk to someone about how Express Glass can help you with your emergency glass and glazing, call Express Glass on 1300 666 234 or email [service@expressglass.com.au](mailto:service@expressglass.com.au).
